

LAB: STATIC ROUTING

Task

1. Design the Topology
2. Assign the IP address According to the diagram
3. Make sure that the interfaces used should be in UP UP state
4. Verify Routing table and reachability between the LAN

LAB: STATIC ROUTING USING THREE ROUTERS

Task

1. Design the Topology
2. Assign the IP address According to the diagram
3. Make sure that the interfaces used should be in UP UP state
4. Verify Routing table and reachability between the LAN
